

WUKO Bender Family

„The World’s Smallest Bending Brakes“

made of high quality materials – mostly stainless steel

◆ A DWARF IN SIZE AND PRICE ◆ A GIANT IN PERFORMANCE

WUKO UNI BENDER

Making offsets

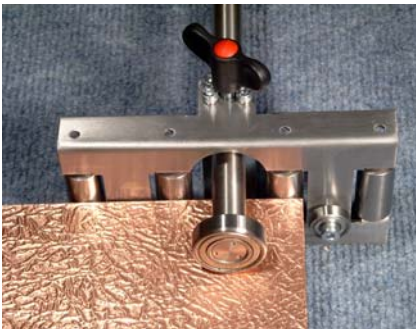

WUKO UNI BENDER

Making the standing seam profile also on curves

WUKO UNI BENDER

No damages on painted or coated material

WUKO UNI BENDER II

Easier handling due to four roller stops

WUKO DUO BENDER

Bending tapered panels

WUKO DUO BENDER

Also for small bending heights (min. 5 mm / 0.2 in.)

And how to use?

Simply adjust the desired bending height with the scale (see picture). Then insert the sheet metal between the bending rolls, the thinner bending roll shows to the direction you want to bend the material. The sheet metal edge lies against the roller stops. Using forward and backward movements slowly bend up the sheet metal (max. 90°).

Our website www.wuko.at offers you our video for download!

WUKO Bender Family

WUKO UNI BENDER 2200

Uni like universal the WUKO Uni Bender can be used for bending and forming in sheet metal fabrication, both for straight and curved pieces – for inner as well as outer radii.

Technical Data:

Max. bending height: 200 mm / 8 in.
Min. bending height: 5 mm / 0.2 in.
Bending capacity: 0.80 mm / 0.031 in.
(for all common materials)
Weight: 1.4 kg / 3.1 lbs.

WUKO UNI BENDER 2350

The „long“ brother of the WUKO Uni Bender – for a maximum bending height of 350 mm / 14 in.

Technical Data:

Max. bending height: 350 mm / 14 in.
Min. bending height: 5 mm / 0.2 in.
Bending capacity: 0.80 mm / 0.031 in.
(for all common materials)
Weight: 1.9 kg / 4.2 lbs.

WUKO UNI BENDER II 2202

The WUKO Uni Bender II is equipped with four roller stops enabling easier handling and better guidance especially on outside radius (qualified use for inner radius).

Technical Data:

Max. bending height: 200 mm / 8 in.
Min. bending height: 5 mm / 0.2 in.
Bending capacity: 0.80 mm / 0.031 in.
(for all common materials)
Weight: 1.6 kg / 3.5 lbs.

WUKO UNI BENDER II 2352

The “long” brother of the WUKO Uni Bender II – for a maximum bending height of 350 mm / 14 in.

Technical Data:

Max. bending height: 350 mm / 14 in.
Min. bending height: 5 mm / 0.2 in.
Bending capacity: 0.80 mm / 0.031 in.
(for all common materials)
Weight: 2.1 kg / 4.6 lbs.

WUKO DUO BENDER 3200

The big brother, WUKO DUO Bender, was especially designed for quick and easy bending of long, straight sheet metal strips. Its function is equal to that of the WUKO UNI Bender, but it's equipped with a second pair of bending rolls and a handle.

Technical Data:

Max. bending height: 200 mm / 8 in.
Min. bending height: 5 mm / 0.2 in.
Bending capacity: 0.80 mm / 0.031 in.
(for all common materials)
Weight: 2.9 kg / 6.41 lbs.

WUKO DUO BENDER 3350

The “long” brother of the WUKO DUO Bender – for a maximum bending height of 350 mm / 14 in.

Technical Data:

Max. bending height: 350 mm / 14 in.
Min. bending height: 5 mm / 0.2 in.
Bending capacity: 0.80 mm / 0.031 in.
(for all common materials)
Weight: 3.9 kg / 8.6 lbs.

WUKO BENDER - simply ingenious !
Easy to use and versatile in application!
